

Radio (or parts) for Sale:

Model: Philco 41-280 console tube radio

Description: 1941 radio with everything shown in the pictures.

Condition: I have had this radio for some time, but do not have the skills to work on it.

When I plug it in, lights turn on. When I adjust the Tuning knob, I hear static but am not able to get any stations. I am not sure if that is because of my location or if there is something else that needs to be adjusted.

Asking Price: \$100 or best offer. I honestly do not know what value this has but am willing to discuss.

Location: Fairfax, VA (Washington DC metropolitan area).

If you have any questions, please feel free to contact me:
