

ATWATER KENT RADIOS FOR SALE

I have two Atwater Kent radios that were left to me by my deceased brother. I am not a collector myself and would like to find a good home for each of these vintage receivers.

Atwater Kent Model 70 Console - from the 1930s with Serial Number E603445 and Chassis Number 6382022. Not sure if it's a "Highboy" or "Lowboy" but I did restore the cabinet and had the radio itself restored. It seems to run perfectly and does not appear to need any further restoration. For this one I am asking \$200 or best offer.

Atwater Kent Model 206 - This one is a model 206 with a serial number of 1591325 which I believe indicates it is from 1934. This one is a Cathedral-shape and is in perfect physical condition — almost like new. It also seems to run perfectly and requires little or no restoration at all. For this one I am asking \$600 or best offer.

Here are web links for general descriptions of both radio models:

[70 Console Radio Atwater Kent Mfg. Co.; Philadelphia, USA, build |Radiomuseum.org](#)

[206 Radio Atwater Kent Mfg. Co.; Philadelphia, USA, build |Radiomuseum.org](#)

If interested, please contact Steve Boyce on 703-207-9048 or sboycemg@aol.com. Both units are available for inspection and purchase (cash only please) in Vienna, VA.
